WE CURE STRICTURE
Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, itching, stinging, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or tearing you. This will cure you, and it will return. Our NEW METHOD TREATMENT absorbs the stricture tissues, hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET
Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Paining Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, thin dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunk Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. One thousand dollars per case we accept for treatment and cannot cure. Terms moderate for a cure.

THE WONDERS

Of Science—Lung Troubles and Consumption Can be Cured.

An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send three free bottles (all different) of his New Discoveries to any afflicted reader of the **MT. STERLING ADVOCATE** writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use. He considers it a simple professional duty, suffering humanity to donate a trial of his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to consumption, which, uninterrupted means speedy and certain death.

Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the **ADVOCATE**. 51-1f

A Remarkable Record.

Dr. Geo. Savage, of this city, agent of the American Bible Society, gives the following view of the work in brief: "Under the overruling providence of God during the thirty-two years of service, I traveled over 525,368 miles on trains, in public and private conveyances, at all hours of the day and night, yet I never received the slightest injury, though several times in the midst of severe accidents. In the business department in making three hundred and eighty-four remittances, of about \$500,000, two clerical errors only, occurred—both less than one dollar in amount. In the seed sowing, 1,268,885 copies of the Scriptures, having life in themselves having been distributed—about two-thirds by sale and one-third by donation. Number of destitute families supplied 137,953; number of destitute individuals supplied 40,515.—Winchester Sun.

Who Fixed This Egg?

We have quite a curiosity, not in the shape of an egg, but resembling in form a tiny gourd with a short handle. It is an egg, weighing one-fourth of an ounce, one-tenth the weight of a large Plymouth Rock egg. It was presented to the Sayings by Mrs. Bowman Terhune, a most estimable lady, who said it was the product of an old black hen. From one of her neighbors we learn that the "fowl" creature was a Spanish hen in which there was no dependence or reliance. "This 'Spanish' creature as all the rest will be was 'headed off' and got in the 'soup,' and after being 'simmered down,' still remained 'tough.'—Harrodsburg Sayings.

Havana and Yellow Fever.

Dr. Hamilton, former Surgeon General of the Marine Hospital Service of the United States, is no doubt correct in the statement he made Thursday that yellow fever could be driven from Havana with the Spaniards.

It has been long well known that no sanitary regulations whatever are enforced in the city. It is badly drained. It hardly has any sewer system. Most of the filth is thrown in the narrow streets; and under a tropical sun, this would cause disease anywhere. Even in private houses little or no effort is made to avoid foul accumulations.

But Havana, and, indeed, the entire island of Cuba, is swept by constant and refreshing currents of pure sea air. Were New Orleans or New York exposed to the same pestilential influences as would result from the total disregard of all sanitary laws, they would become centers of yellow fever germs, as well as of cholera. There is no reason whatever why Havana, freed from Spanish misrule, Spanish negligence and Spanish greed, which exacts so much from the people and pays out nothing for their health and comfort, would not become one of the healthiest cities in the Western hemisphere. Under different rule it must become also one of the wealthiest. It has now a population of over 250,000. Within three years after the expulsion of the Spanish that population will be doubled. There are millions and millions of dollars, not only in this country, but in the hands of the agents of European capitalists, ready for investment there, waiting only for the freedom of the island. There will be business opportunities such a never have been presented to the people of the United States—such as will discount any ever offered by California or Alaska. The city will become the winter resort of the wealthy classes of Boston, New York, Philadelphia and Baltimore. The harbor will be crowded with yachts. Winter racing will take the place of bull fights. Hotels rivaling the handsome ones in New York will occupy sites now dotted with small smoky cafes. The city will surpass Venice in its palmy days. There will be brilliant equipages, dazzling opera houses, splendid streets, beautiful suburbs, and, more than all, the most fascinating women to be found on this side of the Atlantic, if not in the world.

Make no mistake about Havana. Make no mistake about the entire island. It is the most fertile and lovely spot on the globe.—Louisville Times.

Health and strength carry us through dangers and make us safe in the presence of peril. A perfectly strong man with rich, pure blood has nothing to fear from germs. He may breathe in the bacilli of consumption with impunity. If there is a weak spot where the germs may find an entrance to the tissues than the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood the only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists digestion by stimulating the secretion of digestive fluids, so promoting assimilation and nutrition; purifies and enriches the blood and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

Humor After the Battle.

The laziest man in the regiment lay in the hospital tent. A comrade came to see him. Lost a leg, ah? he said. "Why, that leg was not so badly shot as to need amputation." "I know it drowled the lazy man. "But nevertheless I recommended it." "You did? Why so?" said the other astonished. "Because," muttered the man, "I won't have but one boot to keep shined now!" The other turned aside. "Just throw that leg out back of the tent," said the wounded man. "I'll do the same thing for you some time. "Hang me if you do!" cried the comrade, hurrying away.

WHEAT BOOMED

Last Week and May Go Higher.

May wheat on Thursday reached \$1.50, where the Leiter party had it for sale. This was an advance on May within two days of 35 cents per bushel, and an advance since Wednesday night of 20 cents. July at one time was up almost 5 cents over Wednesday night. The circumstances seem remarkable, and yet they were no more so than the happening on the other side. Paris, notwithstanding the removal of its 37 cents duty the day before, was up equal to 5 cents a bushel. Since the duty removal it has lost only 5 cents a bushel. Leiter sold to a Paris syndicate 2,000,000 red winter in one block at a price equal to almost \$1.50 C. I. F. continent. His cash sales aggregated 2,750,000 bushels.

J. B. TIPTON.

"In all thy ways"—yes, in all your ways, as the child of God, there are his angels ready to minister to your needs. I am afraid that we do not always believe this. It is easy in moments when the way is full of light, when we stand upon the mountain-top of some high, spiritual privilege, attended by kindred souls, to believe that the angels have guided our feet. But what of the dark way of sorrow, down which duty sometimes sadly points the way? What of the stormy paths, that lead through dire temptation and to a veritable Calvary, where self is to be crucified? Go back and read the melting story of Him who alone can be your friend in such an hour. "Then the devil leaveth him, and behold, angels came and ministered to him." "And . . . he knelt down and prayed, saying, Father, if thou be willing, remove this cup from me . . . and there appeared an angel unto him from heaven, strengthening him." The Father had not forsaken his Son; nor has he forsaken us when he leads us into the valley of darkness. Those who, for his sake, penetrate furthest its shadows, know most of the sweet ministries from above.—Christian Standard.

A Devoted Husband.

A beautiful anecdote is told of Wendell Phillips, illustrating his love-like devotion to his invalid wife. At the close of a lecture engagement in a neighboring town his friends entreated him not to return to Boston. "The last train has left," they said, "and you will be obliged to take a carriage into the city. It is a sleety November night, cold and raw, and you will have twelve miles of rough riding before you get home." To which he replied, "but at the end of them I shall find Annie Phillips."—Ex.

Are Americans Pigs?

Since the battle of Manila, Prof. G. S. Ensel, of the city, has originated a new and very appropriate name for the Spaniards. "The Spaniards call us 'pigs,'" he said to a friend the other day, "but I call the Spaniards 'pig-mice,'" and when it comes to fighting Uncle Sam the epithet seems to be very appropriate. Prof. Ensel should get a copyright on the name.—Paducah Sun.

and 18 others with race records better than 230. Russell Clay, with a record of 212 1/2, and a trial of 209 on a half-mile track, her owner expects her to place a new record for pacing, more this season. Exploit, 212 1/2, L. 234 1/2, and a trial of 207 1/2 p.; Clayline, a green trotter with a trial of 212 1/2, and Isaac, another green trotter with 60 days work, trotted in 2:15. Their owners expect them to trot in 2:10 or better this season. I expect CLAY to have two 2:05 performers and several 2:10 performers by the close of 1898.

CLAY, sired by Electioneer, the greatest sire that ever lived, was the first horse to sire 100 performers in the list, and has the lead today, including Arion, 3 yrs, 2:07 1/2; Sunol, 3 yrs, 2:08 1/2, to high-wheel sulkey, the only trotter that ever drew a high-wheel sulkey faster than May's S. 2:05, and Palo Alto 2:05 1/2, the champion stallion and the only stallion that ever trotted a mile to a high-wheel sulkey faster than Allerton 2:09 1/2.

CLAY'S 1st dam is Maid of Clay, the dam of Carrie C., 4 yrs, record 2:24; Clay 4479, stallion, record 2:26, trial 2:10 1/2; Clay 245, trial 2:18 1/2; Capt. Smith 238, trial 2:21, by Harry Clay, sire of the dam of George Wilkes, sire of the dam of Clay 4479, and founder of the Clay family; 2nd dam by Day's Messenger; 3rd dam by Ballface Connell.

In Clay you have a union of the same elements that produced the great George Wilkes, but in a more concentrated form, combining the blood of Green Mountain Maid, dam of 7 in the 2:20 list, and Maid of Clay, dam of 4 in the list. Maid of Clay taken a very high mark as a producer to speed. "Out of six foals (one died at a yearling) she has 4 out of 5 in the list."

H. S. Strother, who paid Gov. Leland Stanford \$15,000 for Clay, said that he never saw anything by Clay with a splint, curb, spavin or any kind of a groby substance.

CLAY will make the season of 1898 at Elm Wood Farm, 1 1/2 miles east of Mt. Sterling, Ky., on Owensville pike, at the low
